

What counts in life / Wat yn it libben telt

‘What counts in life
is not the mere fact that we have lived.
It is what difference we have made
to the lives of others
that will determine the significance
of the life we lead.’

‘Wat yn it libben telt
is net it loutere feit dat wy libbe hawwe.
It is it ferskil dat wy makke ha
foar it libben fan oare minsken
dat de betsjutting
fan ús libben bepale sil.’
